

LASTING POWER OF ATTORNEY

If you are struck by accident or illness or if you lose capacity, without a registered Power of Attorney, your assets, savings and bank accounts are likely to immediately be frozen.

Equally, if you have a business and you are struck by accident or illness, your business may fold.

Without a Lasting Power of Attorney, not only your own life but also that of your partner, could be substantially affected with your partner having limited access to joint accounts and not being able to access your partners accounts.

When Can You Apply For Power Of Attorney

You can only apply for a Power of Attorney whilst you have capacity.

What Happens If You Do Not Have Power of Attorney

Family will have to apply through the Court of Protection for approval to help you with your affairs. With this comes **substantially** increased fees, increased complexity and you will also find yourself monitored by the Courts, with annual fees to be paid and sometimes restrictions on the power you have over the estate.

Whilst this time consuming process is carried out, the rest of your family will remain powerless to deal with anything on your behalf. We offer a completely free initial consultation to review your position. We specialise in later life planning and help ensure you and your family are protected from many of these risks and eventualities.

For a free consultation, please contact us on 01257 686386.
